

I'm writing you in regards to the change to the frequency that would allow the LPFM to take priority over existing stations. I have been an Air 1 listener for about a year and a half and don't listen to much else. The impact of taking Air1 off the air could be irrevocable. People who are ready to take their lives have been saved (both physically and spiritually) by the station and their many ministries. There are also alot of young teens and adolescents that wouldn't have anything positive in their lives without Air1. And as a parent of two boys (who can be heavily influenced by society)I would seriously have to consider another alternative other than FM radio. I don't trust the other stations to allow my sons to hear the trash that is broadcast. Taking Air1 off the airwaves and replacing it with something else could allow marriages to dissolve, teens to lash out in unhealthy ways, and not give the rest of us a positive message each and every morning, noon, and night. Thank you.

In Christ
Kevin
